Date: July 19, 2025

To Whom It May Concern,

I am pleased to recommend **Sameer Ahmed Jan**, who worked with me remotely as a technical intern during April 2021. At the time, I was serving as a contractor with Teach For America, and Sameer supported our internal project by helping test and document APIs for Power BI and Google Drive.

He primarily used **Jupyter Notebook** to run tests on API endpoints and create clear, structured documentation. Sameer was quick to understand the requirements and showed strong attention to detail throughout his work.

Although the internship lasted only one month, Sameer made valuable contributions. His work reflected solid technical understanding, clear communication, and a proactive approach to learning.

I'm confident he will continue to grow in his career, and I'm happy to recommend him for future opportunities.

Sincerely,
Malik Hassan Qayyum
Former Contractor – Teach For America
