PROFESSIONAL SUMMARY

Fresh Bachelor of Science in Computer Science graduate and Full-Stack Developer with hands-on experience designing and developing modern web applications, RESTful APIs, AI-powered platforms, and database-driven systems. Proficient in Python, Django, Django REST Framework, React, TypeScript, JavaScript, MySQL, and Git. Experienced in building secure backend architectures, responsive frontend applications, API integrations, authentication systems, and AI-assisted features. Strong foundation in software engineering, data structures and algorithms, database systems, and full-stack application development.

SKILLS

Python | JavaScript | TypeScript | React.js | Django | Django Rest Framework | MySQL |
AI Integration | Docker | Git / GitHub | API Integration | Responsive Design

PROFESSIONAL EXPERIENCE

Fiverr, Freelance Full-Stack Web Developer 01/2020 – 09/2021

- Designed backend systems and integrated relational databases to manage dynamic application data securely and efficiently.
- Developed RESTful APIs and integrated third-party services into web applications.
- Used Git and GitHub for source-code management and version control.

Teach for America (Remote), Intern – API Automation 04/2020 – 05/2020

- Developed backend automation workflows involving API integrations and credential management.
- Improved connectivity between external services and internal systems through API-based workflows.
- Worked with authentication and API communication concepts to support automated operational processes.

PROJECTS

SmartLearn — AI-Powered Personalized Learning Platform 📄 09/2025 – Present

- Designed and developed a full-stack AI-powered learning platform using React, TypeScript, Vite, Django, Django REST Framework, and MySQL, with secure authentication and Role-Based Access Control (RBAC).
- Implemented AI-powered features including personalized learning, lecture/quiz/assignment generation, and an interactive AI tutor to support student learning.

CineView — Movie Discovery Platform 📄

- Developed a responsive movie web app using React and Axios to fetch, search, and filter live media data from the TMDB API.
- Integrated Firebase Auth and Firestore for secure user login and saved watchlists, deploying the full app on Firebase Hosting.

EDUCATION

Foundation University Rawalpindi, Bachelor of Science in Computer Science

09/2022 – 07/2026
